Hazardous Spill #17-4886, Power Outage, Los Angeles County

On 07/08/17 at 2008 hours, the California State Warning Center received notification from Los Angeles Water and Power that a fire at a transformer had caused the release of 1000 gallons of mineral oil. The mineral oil mixed with fire suppression water impacted nearby storm drains.

- Per the Cal OES Southern Region Duty Officer (SDO), as of 2100 hours on 07/09/17, 56,378 customers were without power.
- Per California Utilities Emergency Association (CUEA) as many as 140,000 customers were without power.
- As of 07/09/17 at 1158 hours, 16,067 customers are still without power.
- Repairs are ongoing with an estimated restoral time of midnight tonight 07/09/17.
- All notifications were made per SOP.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.
- Effective 07/01/17, there will be a shuttle available until the Pfeiffer Canyon Bridge reopens (estimated reopening date from Caltrans is September 2017) seven days a week, 1200-2000. North shuttle leaves every hour starting at noon. South shuttle leaves every 15 minutes from Loma Vista to Nepenthe. The last shuttle from north to south is at 1700 hours. The last shuttle from south to north is 1900 hours.
- Pfeiffer Big Sur State Park will reopen to the public on 07/01/17 after an 11-month closure due to the Soberanes Fire and winter storms.
- Julia Pfeiffer Burns State Park, Andrew Molera State Park, and Highway 1 at Pfeiffer Canyon Bridge remain closed.

WEATHER OF CONCERN

Weather of Concern

- High pressure will continue to produce hot and dry conditions for portions of Northern and Central California today.
- Monsoon moisture will bring cooler temperatures and thunderstorm chances across portions of Southern California mountainous areas and valleys today.
- Tomorrow temperatures are predicted to drop due to the high pressure system moving eastward away from California.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php - Temporarily unavailable.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

***** Hot, Dry, and Windy Coastal Areas Above the Marine Layer Today *****

Strong high pressure near the 4-Corners will weaken and move east over the next few days as a Pacific low pressure trough moves over WA, OR, and northern CA. Inland temperatures will still be above normal today, but a cooling trend will bring them close to normal Monday through Wednesday. SW-W winds will increase in northern and eastern areas to 10-20 mph with gusts to 25-30 mph for a few hours this afternoon and again Monday afternoon, then return at lighter speeds Tuesday and Wednesday. Some mid-level cloud development is possible in far northern areas due to the trough. There is a remote chance of a shower or thunderstorm each day through Wednesday near the OR state line. In coastal areas, very dry and warm air remains in place above the shallow marine layer (1000-1400 ft), and increasing onshore winds will gust to 25-30 mph this afternoon and evening in the Bay Area. RH will remain in the 10-20% range there today, then climb this evening.

In Del Norte County dry NE winds will gust to 25-30 mph over the higher terrain off and on through Tuesday morning.

The high will build back over the Great Basin late in the week and bring a return to very hot and dry weather. There will be a slight chance of afternoon thunderstorms in far southeastern areas each day, with increasing chances and coverage next weekend.

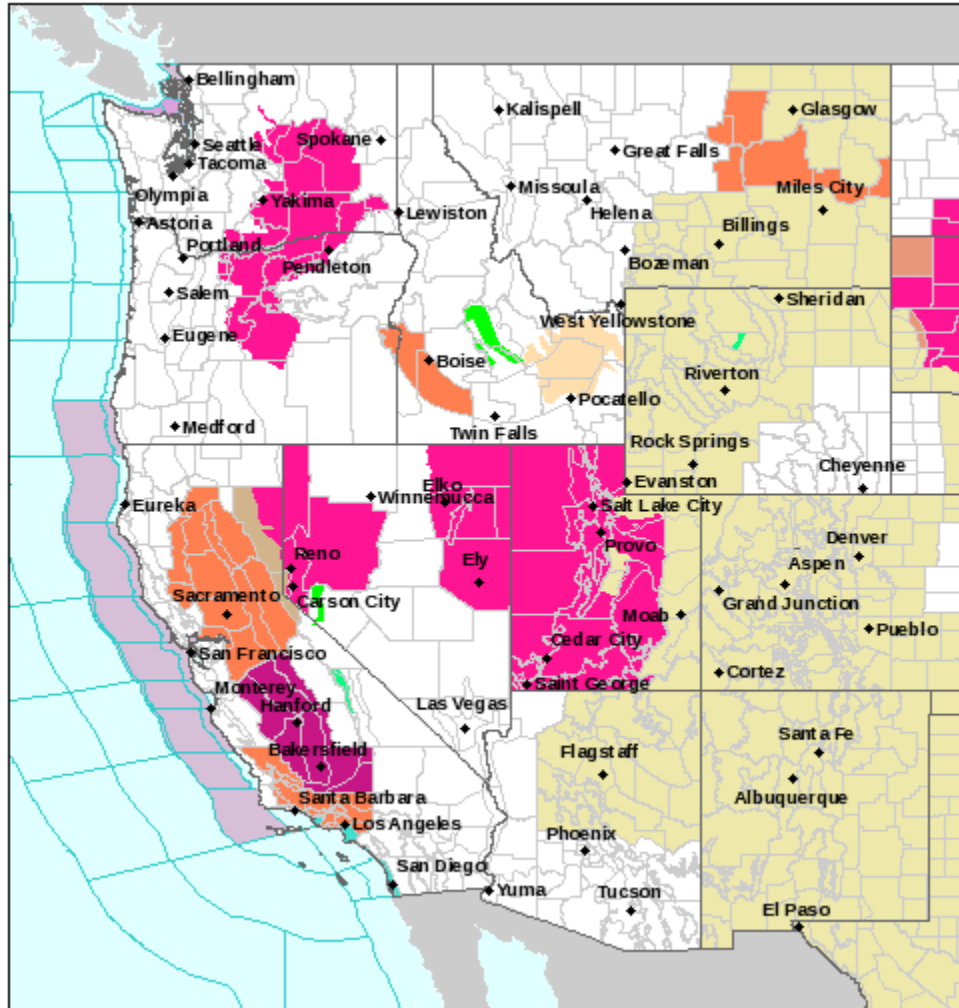

SOUTHERN CALIFORNIA

*****Scattered thunderstorms mainly over the mountains and deserts today*****

Southeast flow aloft around high pressure centered over the Four Corners Area will bring scattered showers and thunderstorms mainly to the mountains and deserts through this afternoon. However, some shower and thunderstorm activity may occur over the coastal and valley locations of Southern California through this afternoon as well. The flow aloft will switch to the south and southwest Monday through Thursday causing the mid levels of the atmosphere to dry out. Isolated afternoon showers and thunderstorms will occur over the Sierra and across the mountains and deserts of Southern California east of the I-15 corridor Monday and then just over the Sierra Tuesday and Wednesday. High pressure over the Four Corners Area will weaken and shift east as a trough approaches the Pacific Northwest which will bring a slow cooling trend to the area through Wednesday. Maximum temperatures will be in the mid 80s to mid 90s across the mountains and mid 90s to 105 in the valleys today. Minimum humidity will be mainly between 15% and 30% through the end of this week. High pressure will strengthen and move west bringing significant warming Thursday into next weekend. Record heat will be possible Friday into next weekend. There will most likely be no thunderstorm activity across the region Thursday and then thunderstorms will increase Friday through next weekend as east southeast flow aloft sets up. Westerly winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone desert areas each afternoon and evening through Thursday.

Ongoing and Closed Cal OES Law Missions

- **2017-LAW- 37008, 7/8/17 @ 0735 hours,** The International Emergency Rescue Coordination Center (IERCC) advised of an SOS InReach device activation on the Pacific Crest Trail in Kern County, coordinates 35° 20' 12" N, 118° 17' 6" W. IERCC called the Kern County Sheriff Department (KCSO) directly with the request for assistance. IERCC advised the hiker has texted that he is 55 years old, alone, and almost out of water, tired and dehydrated. LDO contacted Kern Sheriff on-duty Sergeant who is coordinating the search and has texting capability with the hiker. KCSO advised they were able to communicate with the hiker by text, they have asked him to shelter in place while they coordinate a search team to hike into rescue him. **UPDATE: 1730 hours,** As search and rescue volunteers were hiking in, they were approached by two men who robbed the volunteers of their Kern County Sheriff radios (SAR volunteers were not injured). The rescue mission was halted and the hiker in distress was told (via text messages) to shelter in place until a new search team could be assembled to reach him. Kern County Sheriff cordoned off the area of the Pacific Crest Trail from Hwy 58 to Kelso Valley and ensured no other hikers were in the area on the trail. The distressed hiker was ultimately rescued at approximately 2030 hours. He declined medical treatment and was taken to a local hotel. (The robbery is being investigated by Kern County Sheriff)
Mission Closed
- **2017-LAW-37028, 7/8/17 @ 1414 hours,** The International Emergency Rescue Coordination Center (IERCC) advised of an SOS InReach device activation plotting in Inyo County National Forest, near Big Pine, coordinates: 37° 7' 28" N, 118° 30' 10" W. The Registered Owner has no emergency contact or itinerary listed. IERCC advised original activation was received at approximately 1320 hours, however coordinates did not come in until 1414 hours. they actually received the activation an hour ago, at approximately 1320 hours, however the coordinates did not come in until 1414 hours. They've received three activations, all the same coordinates. R.O. is not responding to text messages. LDO notified Inyo County Sheriff. **UPDATE: 1530 hours,** per IERCC, they received a cancellation text from RO. He texted he was not in distress. Inyo Sheriff was notified to cancel due to accidental activation. **Mission Closed**
- **2017-LAW-37002, 7/7/17 @ 2330 hours,** Butte County Sheriff's Department requested Law Enforcement Mutual Aid (LEMA) for the Wall Fire in Butte County. A total of 16 law enforcement officers/deputies were requested for 4 operational periods beginning at 0600 hours on 7/8/17. The request was filled via the Region 3 RMAC in coordination with CA State OES - Law Branch LDO and Region 3 Assistant Chief Troy Clegg. **UPDATE: 2145 hours,** Butte County Sheriff has requested an additional 20 officers/deputies (2) person cars for a 48-hour, (10) for dayshift 0600-1800/ (10) for nightshift 1800-0600 deployment to the Wall Fire from Region IV. EMAC and Public Assistance - 2017 Winter Storms

- Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.
